Mr. Solomon Aryeh
SMG Stone
8460 San Fernando Road
Sun Valley, CA 91352

Dear Solomon,

I would like to thank you and your staff for your participation on the Biological Sciences 3 project on the campus of the University of California Irvine.

The project was a huge success thanks to partners like SMG Stone whose performance once again exceeded our expectations and delivered a quality installation on time and on budget.

We look forward to working with SMG Stone on future projects not only on the UCI Campus but also throughout Southern California.

Respectfully,

John Betz
Sr. Project Manager
