Dear Solomon:

I would like to extend my acknowledgement and gratitude to you and your entire company for your work on the Four Seasons Hotel Westlake Village, as well as all the many other projects we have worked together on. The Four Seasons project was very challenging and your shop and field personnel handled it beautifully. It was reassuring to know that your new local shop fabrication facility was able to accommodate any issues that arose on the project. The product that your shop crews produced while working two shifts was wonderful.

Additionally, your field crews did an excellent job on the installation under a very tight schedule. You were able to provide additional manpower when the project warranted it and you were able to stay right on schedule. The work performed was highly custom and the quality was exacting.

Thanks again for a job well done. I look forward to working with SMG Stone again in the future.
